

## **MEDICAID TRANSPORTATION**

Medicaid Transportation provides transportation for eligible Medicaid recipients to and from Medicaid-covered services. Unfortunately not all Medicaid recipients are eligible for transportation assistance depending on their Medicaid eligibility. Transportation is arranged with the nearest provider and least expensive means suitable and appropriate to meet the individual's needs. Recipients may contact the Medicaid Transportation Coordinator at (828) 426-8256 to request transportation assistance or to determine eligibility assistance. Requests need to be made 3 days prior to the appointment.
